SYNOPSIS

Community is an important need for any believer to walk firm in his/her faith. Scriptures are clear that there is victory in the presence of an abundance of counselors. The Bible also declares that we are refined and sharpened by other believers and that we do the same for those around us. Community is clearly more than a buzz phrase or a new fad; rather community is a Biblical commandment.

Dangers await those that choose to isolate themselves from the pack. This video humorously depicts just how vulnerable we can be to those dangers.

DISCUSSION QUESTIONS
