

# IGNITER MEDIA

## Mother's Day Virtual Video Script

### The Idea

Get in touch with the Dads in your congregation and ask for their help to love on those Moms. Send them this script and have them help their kids say the entire thing. Or, reach out to those "grown up" kids and have them say it. Then, have them email the video to you. Someone from your team can cut it together – maybe enhance it with resources from Igniter - and then share it in your Mother's Day Livestream for a meaningful, personal way to stay connected.

### The Script

Hey Mom! You deserve to hear this more than just one day a year, but in case I haven't said it lately: I love you and I'm so grateful God chose YOU to be my mom.

[smaller child]

I watch the way you do stuff that is NO fun - like cleaning up and changing dirty diapers.

[older child]

I watch the way you teach us hard lessons.

[grown up child]

I watch the way you stayed strong when things looked rough and stayed strong when things WERE rough.

I know you do a LOT, and way more than I realize.

[smaller child]

Like showing me who Jesus is.

[older child]

Or growing me to be a good man/woman.

[grown up child]

I know my kids will be better off because of the way you loved us.

[smaller child]

I'll know how to work hard, because you work hard.

[older child]

Because of you, I will know that a good leader is servant-hearted.

[grown up child]

And generosity is second nature to me because you showed me it's how to live.

So today, we celebrate you. For all of the reasons we see every day, and for the ones we don't. But really, just because you're you. My Mom. Happy Mother's Day!
